Spiritual Awakening - Learngeeta.com

Smt. Anita Ravishankar, Pune

The dreaded pandemic brought the normal lifestyle to a halt, leaving a wide gap in the day, with nothing constructive to be done. Having taken a retirement from the absorbing consultancy assignment – needing daily dedicated work hours and travel, the day just ended with boring routines. Such a pressing gap after 35 years of continuous and challenging Corporate work was overwhelming. But as they say Shrikrishna willing, nothing is difficult. Soon enough and fortunately enough got introduced to the free online Santha Classes organized by Geeta Pariwar. What started with skepticism, soon turned to curiosity and within 3-4 months became a meaningful purpose. Anita Sangamnerkar Ji my L2 Trainer suggested that I should apply as a Trainer. Her confidence gave me the courage and I applied. It was a complete turning point, and this casual journey to learn Geeta, became an extremely engrossing daily activity, that I sought and looked forward to exactly like the work that I was used to. As a Sadhak I was happy, as a Volunteer and Trainer I was ecstatic. Further opportunities to volunteer in other arena's came when my interaction started with Jyoti Shuklaji. She understood my capabilities and limitations very well and gave me very rewarding tasks.

Met more interesting and inspiring Teachers and Colleagues/Friends on the way, making the journey even more beautiful with each passing day.

My wish for Geeta Pariwar- may it flourish and reach each and every household, each and every hand, as per the mission statement coined by Parampujya Swamiji. May it assist in bringing back the past glory to this beautiful nation. May it help consolidate India's position as the undisputed leader in Spiritual awakening and service to Mankind. And last but not the least, may it inspire more and more ignorant people like me to come into this fold of enlightenment and wisdom, bhakti and awakening, faith and surrender.
