

अगस्त स्तर–4 (L-4) – 4वाँ बैच

https://youtu.be/YIRhacwD2m4

Dr. Ashu Goyal Bhaiya, the National Vice President, Geeta Pariwar, Welcomed the 8000 sadhaks to May L4 batch and appreciated their progress to the final level of learning Geeta.

He mentioned that, including the first L4 batch of May, the number of sadhaks reaching the final level turned out to be 25,000 till date. He said we are blessed that we are an integral part of such a glorious event . All this is the result of our good deeds not just in the past but the present too and also the blessings of our ancestors.

He applauded the progress made by all the sadhaks but also made an earnest request never to drift away from the path shown and laid by Geeta ji. He said it's quite natural to have a query or a thought in their minds that once the L4 learning is over then what? He then laid down the options of staying connected to Geeta through the Geeta Pariwar's motto; Learn Geeta, Teach Geeta and imbibe Geeta.

He said, now that the first step of learn Geeta gets completed, they need to move to the next step : Teach Geeta. Here, he elaborated on the “teach Geeta” aspect. He said “teach” encompasses many dimensions of offering services other than becoming a Core trainer.

There are 36 different departments from which one can choose to offer their services which culminate into teaching and reaching many more sadhaks in their quest to learn Geeta. Becoming a part of the Volunteer brigade results into making Geeta their way of life thus achieving the final aspect of the motto “imbibe Geeta”.

He said, one should, without fail, attend the weekend Vivechans for; these inspire to pick up some good thoughts and morals to enrich themselves by incorporating the good actions, attitude and become a better version of self, each day.

He further added that, mere completion of level 4 does not mean one has mastered Geeta, and that, one needs to learn Geeta throughout the life to know it better, as Swamiji says Geeta is a marvel that has such a depth that one keeps on learning something new each day from it.

Respected Ashu Ji also suggested all; to rejoin the class from whichever level they desire and keep learning to gain perfection and be totally attached to Geeta.

He concluded by saying that, it's time to let go the traits like aggression, ego, jealousy, negativity and adopting good thoughts, good actions, positive outlook, caring for others, living for others alongside their own growth, taking care and nurturing the nature. These actions would take us closer to our goal of attaining divinity. He said all this can happen only if one relentlessly puts in efforts to bring about a desired change. He also asked the sadhaks to become the torch bearers to spread Geeta far and wide. And doing so one becomes dearer to the Divine.
